ABOUT THE SUPPLIERS

The list of suppliers in this book is not intended to be exhaustive; they represent only a tiny fraction of suppliers. They are intended to give you a starting point, as this is the most difficult part of setting up any business is finding the right suppliers.

They are all suppliers that I have used or have come highly recommended to me. Use the techniques and links contained in Module 2 to allow you to find your own products and suppliers.

As with everything it is important to conduct your own research and exercise due diligence in all your dealings, order small quantities to test the market you can always order a greater quantity with a bigger discount if you find a best selling item. This is the information I wish that I had had when I started.

Good luck and happy trading.

**100% ORGANIC
ALL NATURAL GARDEN PRODUCTS**

Finally... 100% ORGANIC, all natural products from a company that chooses only carefully selected organic materials and transforms them into rich, nutritive, high quality products.

GroundsKeeper's Pride chooses carefully selected organic materials, that might otherwise consume valuable landfill space. GroundsKeeper's Pride recycles renewable resources by completely composting and breaking down 100% natural raw materials.

Our advanced composting technology process provides a rich organic base that resists further shrinking. Our exclusive formula results in a consistent nutritive product.

Add GroundsKeeper's Pride products to flowerbeds, lawns, gardens, trees, planter boxes, bulbs, roses, shrubs, cacti, vegetables, annuals and perennials, to improve soil structure while stimulating plant growth... *naturally!*

About McKlorlds
McKlorlds business to date has been built around providing bespoke solutions to real customer problems and developing real partnerships with its clients, both industrial and retail. Quality is key and all products are manufactured to ISO 9001 2000.

For the first time, these industry driven product developments are now available as commodities, enabling all McKlorlds Direct customers to benefit from the years of product development that has been carried out in conjunction with major industrial users.

McKlorlds supplies a range of degreasers for every possible degreasing job. We supply products that cope with the most severe environments including steel mills, rail and road tunnels, heavy engineering plants, garage workshops. Kitchen degreasers are a major focus and McKlorlds provide mild degreasers right through to products to clean cooker hood, extraction units, filters, commercial ovens, fryers etc. The cleaning of oil, fats, grease, burnt on deposits are notoriously difficult task that can be handled with ease with McKlorlds comprehensive range of degreasers.

HOW TO SELL YOUR PRODUCTS

Obtaining the stock at the right price is only one of the step towards a successful eBay or Amazon business, knowing how to sell the items correctly to maximise profits is the second and most important part.

Plugin auction profits is a complete course that takes you from eBay newbie to e-commerce in 3 easy steps. Over the course of 3 modules it reveal the **EXACT** blueprint I use to make £1000's of pounds per month on near AUTOPILOT on eBay, Amazon and beyond. In Plugin Auction Profits you will learn:

- How to start your business with next to nothing in the way of start up capital (NOT drop shipping).
- Where and how the eBay Powersellers obtain their stock.
- The exact recession proof markets ready for you to plunder.
- The EXACT emails and strategies used to source stock for resale on eBay, Amazon and beyond.

Subscribe to my blog for FREE cash pulling sales tips on eBay & Amazon
<http://robert-corrigan.com>

- The simple strategy that will explode your sales, 99% of eBayers fail to use this simple method.
- How to compete with the major Powersellers without competing with them.
- How to expand your business beyond eBay, most eBay traders fail to make the money that they should because they never use this simple strategy.
